Navarro Thoracic Retractor
Open your vision field!

With a standard Finochietto retractor

- Cylindrical field of vision

With the new Navarro Retractor

- Conical field of vision

DC30650-00

- Navarro Thoracic Retractor
- Patented Pattern
★ Open your field thanks to specially designed blades.
★ Do not use any more two crossed Finochietto retractors: use accessory blades.
★ Be comfortable at work.
★ Adapt your retractor to each patient with 8 possible blades configurations.

Included: DC30651-30 and DC30652-30

DC30651-30

- Classic Blades For Navarro Retractor, 30 mm Depth
★ Specially designed to optimize the vision cone.
★ Provided by pair.
★ Exist in 3 different depths:
  - ask for DC30651-20 for 20 mm depth,
  - ask for DC30651-40 for 40 mm depth.

DC30652-30

- Narrow Blades For Navarro Retractor, 30 mm Depth
★ Dedicated to be used in a 3 blades configuration with one of the blades DC30651-30.
★ The 3 blades configuration improve the stability of the retractor for standard or big thoracotomies.
★ Exist in 20 mm depth:
  - ask for article code DC30652-20.

DC30653-30

- Accessory Blades, 30 mm Depth (option)
★ For a smooth uncut muscles retraction.
★ A perfect adaptation to any patient and the size of the opening:
  - add 0, 1 or 2 suplementary blades.
★ Widens thoracotomy either to the back or front.
