

Heart Valves Reconstruction Kit

DC30000-00 : Carpentier Mitral Valve retractor

DC13010-23 : Resano Forceps 23 cm *Magic Forceps*
DC13010-32 : Resano Forceps 32 cm

DC13110-28 : Carpentier Vascular Dissecting Atrauma 28 cm

DC13200-24 : De Bakey Atrauma Tissue Forceps 24 cm
DC13200-30 : De Bakey Atrauma Tissue Forceps 30 cm

DC33000-14 : Carpentier Wire Retractor 14 mm
DC33000-17 : Carpentier Wire Retractor 17 mm
DC33000-20 : Carpentier Wire Retractor 20 mm

DC33100-00 : Vascular Hooks 90°
DC33110-01 : Carpentier Vascular Hook 125° extended
DC33120-00 : Vascular Hooks 45°

DC21050-26 : Papillary Muscle Scissors 4 articulations 26 cm

DC45000-25 : Papillary Muscle Clamp Resano Jaws 25 cm
DC45001-25 : Papillary Muscle Clamp Resano Jaws 25 cm
DC45000-29 : Papillary Muscle Clamp Resano Jaws 29 cm

DC51011-27TI : De Bakey Needle Holder 27 cm Titane

DC51000-23 : Carpentier Needle Holder 23 cm
DC51150-23 : De Bakey Needle Holder 23 cm
DC51170-24 : Mayo Hegar Needle Holder 24 cm

B35100 : Fino Metzenbaum Scissors Curved 23 cm

DC71500-00 : Aortic Purge Needle

Pr. Alain Carpentier Instruments Kit

DC30000-00

+ Carpentier Mitral Valve Retractor

Open the sternum and exposes the heart. Retract the left, right atrium. Releases two or three scrub nurse's hands!

- * Austenitic stainless steel, anatomic sternum blades,
- * Malleable atrium blades (hooks) on their distal part,
- * Low profile and elegant design,
- * Most simple atrium blades attachments (rungs),
- * Easy motion rack,
- * Sighting graduations.

DC13010-23
DC13010-32

+ Carpentier Resano Dissecting Forceps

The **Magic Forceps**. Do everything during the procedure from sensible to strong grasping. Used in all cardiac and vascular surgery.

- * Strong grasping atraumatic jaws design,
- * Comfortable handle grasp,
- * Available in 4 lengths : 18 cm, 23 cm, 27 cm, 32 cm,
- * Measured spring pressure.

DC13110-28

+ Carpentier Resano 3 Articulations Dissecting Forceps

Optimised grasping surface, parallel grasping capability. For mini-thoracotomy approach. Helps work with the same gesture, the same protocol through smaller incisions.

- * Stronger grasping,
- * Less atraumatic grasping as the jaws pressure is equally applied on the tissues.

DC13200-24
DC13200-30

+ De Bakey Atrauma Tissue Forceps

De Bakey dissection. Regular De Bakey jaws for the most delicate vascular tissues.

- * Comfortable handle grasp,
- * Available in 4 different lengths : 16 cm, 20 cm, 24 cm, 30 cm.

DC33000-14
DC33000-17
DC33000-20

+ Carpentier Wire Retractor

Additional atrium retraction and miscellaneous retraction during valvuloplastics, checking the leaflets condition and geometry, palpating.

- * Fenestrated blades,
- * Atraumatic wire blades,
- * Hollow handles,
- * Comfortable and light to manipulate.

DC33100-00
DC33110-01
DC33120-00

+ Carpentier Vascular Hooks

45° to lift the chordae tendinae, 90° test the chordae tendinae tension from 5 mm to 15 mm, 125° asses the tension after repair.

- * Delicate and smooth surface,
- * Precisely laser graduated,
- * Anti slide handle surface,
- * Sabot shape for 90°.

DC21050-26

+ Papillary Muscle Scissors 4 Articulations

Used for the papillary muscle plastics : specially designed for the procedure.

- * Multiple articulation 85° angled blades,
- * Great blades opening with reasonable rings opening.

DC45000-25
DC45001-25
DC45000-29

+ Papillary Muscle Clamp Resano Jaws

Designed to expose, bring into vision, mobilise the papillary muscle.

- * Special length, angles, jaws shape,
- * Very flexible shanks,
- * Strong and atraumatic grasping.

DC51011-27

+ De Bakey Titanium Needle Holder 4 Articulations

For mini-thoracotomy approach ; Helps work with the same gesture, the same protocol through smaller incisions. Helps keep the precision in the long procedures.

- * Titanium body with TC inserts,
- * From 24 and 27 cm length,
- * Stronger grasping,
- * More precise grasping,
- * De Bakey made for sutures ranking 4/0 to 6/0.

DC51000-23
DC51150-23
DC51170-24

+ Carpentier, De Bakey, Mayo Hegar Needle Holders

The sharp-edges free line.

- * Stainless steel body,
- * Regular jaws features and dimensions,
- * High quality machined TC plates,
- * Sharp edges free box lock,
- * De Bakey made for sutures ranking 4/0 to 6/0,
- * Mayo Hegar made for sutures ranking 1/0 to 3/0,
- * Carpentier made for sutures ranking 3/0 to 5/0.

B35100

+ Fino Metzemaum TC Scissors

Performing the complete dissection with the same high quality scissors.

- * Robust manufacturing,
- * Durable and regular sharpness,
- * Precise finish,
- * Long lasting gold plating.

DC71500-00

+ Aortic Purge Needle

Purge the aorta during cannulation process.

- * Stainless steel,
- * Sharp fenestrate distal end,
- * Cannulated.
